- Are business goals not being met?
- Do you have all the right tools, but still find yourself wasting time firefighting the same problems over and over again?
- Are organizational metrics leading to the wrong behaviors?
- Does your organization simply tell stories when reporting metrics but the metrics don't seem to be improving?
- Are the most beneficial organizational strategies being created and executed?
- Are projects either not getting completed or, when completed, don't seem to impact the bottom-line as much as claimed?

This one-day seminar with renowned Lean Six Sigma and Process Improvement expert and author **Forrest Breyfogle** helps organizations address these issues and more.

Competitive pressures are forcing executives to react faster to changing business conditions and customer requirements. Line managers and decision-makers need to have an efficient and effective system for day-to-day business operation with access to performance metrics that lead to the most appropriate activities. In short, what's needed is a performance measurement and improvement system to drive financial and operational success: **Integrated Enterprise Excellence**.

Come learn from Forrest Breyfogle how to address these issues using the Integrated Enterprise Excellence (IEE) system, which goes beyond Lean Six Sigma and The Balanced Scorecard. IEE helps orchestrate the three Rs of business (everyone doing the Right things and doing them Right at the Right time).

Be one of the first people to obtain a copy of two new books written by Forrest on the revolutionary method of IEE. Many references will be made to the book and volume during the workshop.
