

# Comparison of Systems

<b>SELECTED ATTRIBUTES</b> ++: Attribute included +: Partial/incomplete Inclusion -: Not included	Integrated Enterprise Excellence (IEE)	Typical MBA Program	Traditional Six Sigma	Traditional Lean	Original Balanced Scorecard
Defines process for improvements at operational/project level	++	-	++	++	-
Defines a process for improvements at enterprise level	++	-	+	+	-
Derives improvement projects from enterprise value chain metric performance needs	++	-	-	-	-
Uses DMAIC process to implement process improvements (P-DMAIC)	++	-	++	+	-
Uses DMAIC process to integrate enterprise scorecards, strategic planning, business improvements, and control (E-DMAIC)	++	-	-	-	-
Supports standardized graphical representation of selected data (dashboard)	++	+	-	-	+
Aligns enterprise level business metrics (satellite-level) and operational metrics (30,000-foot-level)	++	-	-	-	-
Includes process for definition of rational metrics, aligned at operational and enterprise level	++	+	-	-	-
Includes process for distinguishing between "common cause" and "special cause" problems so as to eliminate firefighting	++	-	-	-	-
Integrates best practices of multiple disciplines: SS, Lean, DOE, etc.	++	-	-	-	-
