Fees

Option 1: Basic Online Green Belt e-Learning Training **\$1,900**

Self paced on-line IEE Green Belt training includes all reference materials and email support for the course software but no coaching for the course content or certification. This option is provided for students that have a strong Lean Six Sigma support network available that can support their project coaching. If needed, the individualized coaching and certification can be added later. Shipments to addresses outside of North America will incur additional shipping charges of up to \$200.

Option 2: Blended Green Belt Training & Certification **\$3,695**

Includes:

Basic Online Green Belt e-learning \$1,900

Individualized Coaching and certification \$1,795

Blended IEE Black Belt training includes all reference material and frequent individualized remote coaching and support on your certification project for up to 12 months. This includes a Smarter Solutions IEE Lean Six Sigma Green Belt certification. This option is provided for those students that want a learning environment similar to a supportive classroom setting but need the flexibility of an online course. Shipments to addresses outside of North America will incur additional shipping charges of up to \$200.

Minitab®

Minitab software is required, but does not have to be purchased from Smarter Solutions, Inc. Please select one of the options below if you wish to purchase Minitab® Statistical Software from Smarter Solutions, Inc. along with your course registration.

Minitab® Perpetual Single-User License \$1,395

Minitab® 1-year License \$550

System Requirements

There are differences between web browsers that may impact the way the lessons are viewed on a screen and how some of the side links function. The e-Learning course is intended to work in Internet Explorer (IE) (recent versions), but nearly every function will also work in FireFox, Chrome and Safari. The student is expected to use Minitab to complete this course. Minitab is available only for the Windows operating system. Many of the e-learning lessons will also work on mobile devices, such as smart phones and tablets, but the Minitab Tutorial files are in a Flash format, that does not work well on most mobile devices.
